

CoaguChek[®] Patient Services Enrollment Guide

Four easy steps to enrolling patients in CoaguChek Patient Services

1 The healthcare professional provides patient information

The healthcare professional submits the Physician Order Form and Patient Insurance Data online using CoaguChek Link (coagucheklink.com) or by fax.

2 The patient provides authorization

The patient faxes or mails us the Patient Authorization Form to allow CoaguChek Patient Services to confirm their coverage, prior authorization, and estimated out-of-pocket costs.

3 CoaguChek Patient Services confirms coverage with patient

We contact the patient with an estimated out-of-pocket cost and let the healthcare professional know if the patient decides not to pursue self-testing.

4 CoaguChek Patient Services schedules patient training

Patients can be trained in the clinic by the patient's physician office or at home by one of our certified trainers. During training, patients learn the importance of testing as prescribed and how to:

- Use the meter
- Report test results
- Order supplies

CoaguChek Patient Services provided by Roche Health Solutions Inc. performs billing of Medicare, Medicaid and other insurance as a service. To agree to this service, read the following statement, then sign and date below.

I authorize Roche Health Solutions Inc. to directly bill Medicare, Medicaid and other insurance on my behalf.
